Be Creative!

 PAMELA TOMLIN, a successful TV Producer bored during Covid, made a nautical alphabet sign that spelled the name of her house "Clambox". She put it on Facebook and ten people asked her to make one for them. Her husband's workmates from "This Old House" taught her best practices. ABC World News and other outlets spread the news. She now sells these handmade signs to beach lovers everywhere. Visit our website to see all of the many options.
